MUNICIPAL REGULATIONS

For Payment of Bills Against the City

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government. The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,
City Clerk.

INAUGURAL ADDRESS

By John W. Storrs, Mayor of Concord

In the 1906 report of the City of Concord, I find in the inaugural address of a late, highly respected and illustrious mayor, a statement as follows:

"This occasion, unprecedented in the annals of Concord, cannot but impress me. Chosen by the voters of this city to a third term as mayor is an honor which I shall always hold dear. As it was at my first election and at my second, so it has been in my third election, an honor all the more prized, because it came without price or solicitation. To be called to a public service in this manner is in my opinion to enhance the trust and to dignify the office. Surely the debt of gratitude which I owe to my fellow citizens, because of their reiterated partiality toward me, is such that I cannot hope to lighten it, except by constant diligence, unwearied effort, honest and courageous discharge of duty."

This is a beautiful sentiment, charmingly expressed; its assertion borders somewhat on a slight implication of audacity, but in similar position one cannot resist the feeling of satisfaction and uncontrolled elation. The re-election to any office cannot be construed, but as a most complimentary gesture and an indication of approval of prior activities, and confidence that mature thought, proper consideration and disposal will be made of problems that in time to come present themselves.

Any of our outstanding accomplishments of the past four years are not due to me alone, but to those who with me in control of city affairs have co-operated and assisted to their utmost in promoting the interests of the municipality.

I am depending upon and feel sure of future concurrence with and by members of this present board and its appointees! It is with this imbued courage that I am assuming the obligation of this office.

I think in many inaugurals of the past, there has been given a review of bygone undertakings, or performances of

our different departments, and suggestions made as to betterments and what should be done during the coming period; these we will omit at this time. All of our records are public; they are readily accessible and comprehensive, and you as members of this Board are not in any way relieved of the responsibility imposed upon you if you neglect to familiarize yourselves with all business of the city, of the different requirements and activities, including cemeteries, parks, police department, fire department, tax collector, health department, weights and measures, water works, playgrounds, recreation, trees, sidewalks, sewers, utilities, public institutions, city library, Works Progress Administration projects, lands, buildings, etc., together with holidays and appropriations for band concerts, Fourth of July, Armistice Day and Memorial Day.

Continued reiteration of statements made in many inaugurals are superfluous.

We all know that in certain cases things are good, in others very good, while in many instances they are not so good. We must take conditions as they are and make the best of it, bearing in mind, however, that we are expected within our ability, and with appropriate care to make improvements.

Today we do not know what may come tomorrow and tomorrow never comes.

Definite statements of what we will do or what will happen in the future are beyond our knowledge.

Would that we could, without fear, have and enjoy everything that the Constitution provides, that our liberty might be in the superlative degree insofar that we might do anything and everything that we cared to do without injury or harm to ourselves or to others, that there should be no unjust restrictions on prices or trade, that they may be so liquefied that they may be enabled to adapt themselves to the requirements of and be governed by supply and demand; and in every way democracy should be upheld with evident manifestations and true realization.

I cannot resist the temptation to use the word economy,

but on this subject I shall not elaborate and will make but little comment.

Economy, national, state and municipal, as a topic of discussion, enjoys a high degree of popularity, but its application to departments of government finds but little favor with those whose pet projects are thereby affected.

Our tax rate for the coming period, you may be assured, will be higher. You know why! The reason is apparent and in evidence. Certain things and obligations are necessary and are impossible of elimination, but otherwise the lessening or reduction of taxes is a simple matter of cause and effect. When our people are willing to deny themselves those things for which public money is expended, taxes will automatically reduce.

In undertakings of any magnitude, it would be wise to consult an expert. A plan for present and future developments should be outlined with a view to a comprehensive, final accomplishment. Had advisory planning reached its zenith years ago we would not now be confronted with so many inconsistencies, disagreeable problems and grotesque situations seeking solution.

You, as members of the Board of Aldermen, are elected by, and represent, the people of our city and by your doings and actions will be judged and held accountable. I, as your mayor, will endeavor to assist and make smooth your way; but let us with implacable purpose, be true with unswerving fidelity to the trust imposed upon us.

ORDINANCES AND RESOLUTIONS

Passed During the Year Ending January 9, 1939

An Ordinance amending chapter 4 of the revised ordinances.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

Section 1. Amend Chapter 4 of Revised Ordinances by adding thereto a new section, to be numbered Section 2, which shall be as follows:

> Sect. 2. Each department, office, board, commission, committee and/or body; which is operated out of funds appropriated in the budgets, approved by the Mayor and Board of Aldermen, shall through its chairman and/or head, render to the Mayor, as chairman of the Finance Committee, during the first week of each month a financial statement, on a form prescribed by said Finance Committee, showing funds expended and commitments made by said board, department, office, commission, committee and/or body during the preceding month. No such department, office, commission, committee and/or body shall legally be able to make expenditures and/or commitments beyond the amount annually appropriated for its use, unless first having been granted such right to legally do so, by a vote and/or votes of Board of Aldermen, or by act of the Mayor.

Sect. 2. All Ordinances and parts of Ordinances inconsistent herewith are hereby repealed.

Sect. 3. This Ordinance shall take effect on its passage.

Passed March 14, 1938.

An Ordinance on amendment of chapter 19 of the revised ordinances relating to plumbing.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

Section 1. Amend Section 1 of Chapter 19 of Revised Ordinances by striking out the whole of said section and inserting in place thereof the following:

> Section 1. The provisions of Chapter 153 of Public Laws and amendments thereto relating to plumbing, examining board for plumbing and licensing of plumbers are hereby adopted to be in force in the city.

Sect. 2. Amend Section 2 of said Chapter 19 by striking out the whole of said section and inserting in place thereof the following:

SECT. 2. There is hereby created an Examining Board for Plumbers, consisting of a master plumber who has been engaged for at least five years in active plumbing business in this State, a plumbing inspector, or in the absence of such officer a member of the local board of health, and a journeyman plumber who has had at least five years of active service. The members of said Board to serve without pay. At the regular meeting of the Board of Aldermen in March, the Mayor shall appoint subject to the approval and confirmation of the Board of Aldermen, the members of said Board for a term of one year each, except should a member of the local board of health be appointed and approved and confirmed as a member of said Examining Board for Plumbers, such member shall serve during his term of office as a member of said local board of health. All members to serve until his and/or their successor and/or successors are chosen. Vacancies occurring in said Examining Board for Plumbers, shall be filled by appointment to membership to said Board by the Mayor, subject to approval and confirmation by the Board of Aldermen.

SECT. 3. Nothing in this Ordinance shall invalidate the provisions of former Ordinances in effect, up until the passage of this Ordinance.

SECT. 4. All Ordinances and parts of Ordinances inconsistent herewith are hereby repealed.

SECT. 5. This Ordinance shall take effect upon its passage.

Passed April 11, 1938.

AN ORDINANCE RELATING TO ESTABLISHMENT OF CITY PLANNING BOARD.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the provisions of Chapter 55 of the Public Laws of New Hampshire, 1935, as amended by Public Acts of New Hampshire, 1937, be hereby adopted by the City of Concord, for the creation of a City Planning Board, in so far as below set forth.

SECT. 2. That said City Planning Board shall consist of nine members, namely, the Mayor, one of the administrative officials of the municipality, who shall be selected by the Mayor, and a member of the Board of Aldermen who shall be selected by the Board of Aldermen, the first three members above named being ex-officio members of said City Planning Board, and six persons who shall be appointed by the Mayor.

SECT. 3. That all members of said City Planning Board shall be residents of said City and shall serve as members without compensation and the appointed members shall hold no other municipal office, except that one of such appointed members may be a member of the Zoning Board of Adjustment. The terms of ex-officio members shall correspond to their

respective official tenures, or in case of an administrative official selected by the Mayor shall terminate with the term of the Mayor selecting him and/or her. The terms of the appointed members shall be as follows: one for one year, one for two years, one for three years, one for four years, one for five years, and one for six years. And thereafter terms of appointed officers shall be for six years each. Vacancies occurring in membership of the said City Planning Board, otherwise than through the expiration of the term, shall be filled for the duration of the unexpired term by the Mayor, except in case of the member selected by the Board of Aldermen, wherein if such a vacancy occur it shall be filled by appointment by the Board of Aldermen.

Sect. 4. Members of the City Planning Board, other than members selected by the Board of Aldermen may, after public hearing, be removed by the Mayor for inefficiency, neglect of duty, or malfeasance in office. The Mayor shall file with the City Clerk a written statement of reasons for such removal.

Sect. 5. The said City Planning Board shall elect its chairman from amongst the appointed members and create and fill such other offices as it may deem necessary for its work. The term of the chairman shall be one year, with eligibility for re-election. The said Board shall hold at least one regular meeting in each month. Said Board shall adopt rules for the transaction of business and shall keep a record of its resolutions, transactions, findings and determinations, which record shall be a public record and kept in an office designated for said records.

Sect. 6. The said Planning Board may appoint such employees as it may deem necessary for its work, whose appointment, promotion, demotion and removal shall be subject to the same provisions of law as govern other corresponding civil employees of the municipality. The said Planning Board may also contract with city planners, engineers, architects, and other consultants for such services as it may require. The expenditures of the Planning Board, exclusive of gifts shall be within the amounts appropriated for that purpose by the Board of Aldermen.

Sect. 7. It shall be the function and duty of said Planning Board established under the provisions of this Ordinance, to make and to perfect from time to time, so far as funds appropriated for such purpose will permit, a master plan for the development of the municipality, including any areas outside of its boundaries which, in the Planning Board's judgment, bear relation to the planning of the municipality. Such master plan, with the accompanying necessary map, plats, charts and descriptive matter, may be designed with the intention of showing as fully as is possible and practical the said Planning Board's recommendations for the desirable development of the territory, legally and logically within the scope of its planning jurisdiction, including, on that basis, among other things, the general location, character and extent of streets, viaducts, subways, tunnels, bridges, waterways, water fronts, boulevards, park-

ways, roadways in streets and parks, playgrounds, squares, parks, aviation fields, and other public ways, places, grounds and open spaces, sites for public buildings and other public property, routes of railroads, omnibuses and other forms of public transportation, and the general location and extent of public utilities and terminals, whether publicly or privately owned or operated, for water, light, heat, sanitation, transportation, communication, power and other purposes; also the acceptance, removal, relocation, widening, narrowing, vacating, abandonment, change of use of or extension of any of the foregoing ways, grounds, places, open spaces, buildings, properties, utilities, or terminals and other planning features, as well as zoning plan for the control of the height, area, bulk location, and use of private and public structures, buildings and premises and of population density; the general location, character, layout, and extent of community centers and neighborhood units; and the general character, extent, and layout of the replanning of blighted districts and slum areas.

Sect. 8. In the course of the preparation of such master plan the Planning Board may make careful and comprehensive surveys and studies of existing conditions and of data and information relative to the probable future growth of the municipality and its environs. The master plan shall be made with the general purpose of guiding and accomplishing a coordinated, adjusted, and harmonious development of the municipality and its environs which will, in accordance with existing and probably future needs, best promote health, safety, morals, order, convenience, prosperity, or the general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provision for traffic, the promotion of safety from fire and other dangers, adequate provision for light and air, the promotion of good civic design and arrangement, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements.

Sect. 9. The Planning Board may adopt the master plan as a whole by a single resolution or may by successive resolutions adopt successive parts of the plan, said parts corresponding with major geographical sections or divisions of the municipality or with functional subdivisions of the subject matter of the plan, and may adopt any amendment or extension thereof or addition thereto. Such master plan shall be a public record, but its purpose and effect shall be solely to aid the Planning Board in the performance of its duties. The adoption of the master plan or any amendment thereof shall be by resolution carried by the affirmative votes of not less than a majority of all the members of the Planning Board. The resolution shall refer expressly to the maps, descriptive matter, and other matters intended by the Planning Board to form the whole or part of the plan, and the action taken shall be recorded on the adopted plan or part thereof adopted by the identifying signature of the chairman or secretary of the Planning Board, and a copy of the plan or part thereof shall be certified to the Board of Aldermen.

Sect. 10. The Planning Board shall have power to promote public

interest in and understanding of the master plan and of the official map of the municipality as hereinafter described and to that end may publish and distribute copies of the master plan, or of the aforesaid official map, or of any report and may employ such other means of publicity and education as it may deem advisable. Members of the Planning Board, when duly authorized by the said Planning Board, may attend city planning conferences or meetings of city planning institutes or hearings upon pending city planning legislation, and the Planning Board may, by resolution spread upon its minutes, pay the reasonable traveling expenses incident to such attendance. The Planning Board shall have authority to make such investigations, maps and reports, and recommendations in connection therewith, relating to the planning and development of the municipality, as seem desirable to it. The Planning Board may, from time to time, report and recommend to the appropriate public officials and public agencies programs for the development of the municipality, for the erection of public structures and improvements and for the financing thereof. It shall be part of the Planning Board's duties to consult and advise with public officials and agencies, public utility companies, civic, educational, professional, research, and other organizations, and with citizens with relation to the protecting or carrying out of the master plan, and to make recommendations relating to the development of the municipality. The Planning Board shall have the right to accept and use gifts for the exercise of its functions. All public officials shall, upon request, furnish to the Planning Board, within a reasonable period of time, such available information as it may properly require for its work. In general, the Planning Board may be given such powers as may be necessary to enable it to fulfill its functions, promote municipal planning, or carry out the purposes of this Ordinance; provided the total expenditures of said Board shall not exceed the appropriation for its expenses.

Sect. 11. The Planning Board may, from time to time, recommend to council amendments of the zoning ordinance or zoning map or additions thereto to conform to the Board's recommendations for the zoning regulation of the territory comprised within approved subdivisions.

Sect. 12. If any provision of this Ordinance is declared unconstitutional or the application thereof to any person or circumstances is held invalid, the invalidity of the remainder of the Act and application to other persons or circumstances shall not be thereby effected.

Sect. 13. All Ordinances and parts of Ordinances inconsistent herewith are hereby repealed.

Passed April 11, 1938.

An Ordinance in amendment of an ordinance passed May 14, 1934, relative to comfort station.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

That an Ordinance passed May 14, 1934, relative to Comfort Station

be amended by striking out the words "Police Board" and substituting the words "Police Commission" so said Ordinance as amended shall read as follows

> "That the Police Commission of the City of Concord be given control and supervision of the Comfort Station, including appropriation, care and maintenance of said station."

SECTION 1. No person, firm or corporation shall set up, employ or use any job team, wagon, automobile, or other vehicle, for the conveyance of goods, wares, furniture, or merchandise, or other personal property, for hire, from place to place within the limits of the city without first obtaining for each vehicle so used (excepting one additional vehicle used temporarily in place thereof while undergoing repairs), a license from the Board of Mayor and Aldermen. No such license shall be issued, (1) unless and until the Board of Mayor and Aldermen have issued a certificate that public convenience and necessity require the operation of said conveyance, (2) only to such person, firm or corporation who and/or which satisfies the said Board that he is, and/or its agents are, thoroughly familiar with the topography of the City of Concord, (3) only to such persons, firm and/or corporation as said Board may deem to be suitable to carry on said conveyance business. Said license shall be effective during such time as said person, firm or corporation is deemed suitable to carry on said business, and during such time as a corporation has in its employment, officers and/or agents thoroughly familiar with the topography of said City of Concord. Application for said license shall be made on forms prescribed by the City Clerk and shall set forth the name and address of the applicant, the trade name under which the applicant does or proposes to do business, where the said business is located or where the proposed location is to be of said business, the number of vehicles the applicant desires to operate with a brief description of each vehicle, and such other facts as the Board of Mayor and Aldermen may require. A record of such licenses shall be kept by the City Clerk. Every person, firm or corporation obtaining such a license shall pay therefor one dollar for the use of the city. Such license may be revoked at any time for violation of the provisions of this Chapter, the City Ordinances, motor vehicle or other

laws of this State, or other rules and regulations prescribed by the said Board of Mayor and Aldermen. Every wagon or other vehicle so licensed shall be conspicuously marked with the number assigned to it by the Board of Mayor and Aldermen, in metallic or painted figures, and the name of the owner and/or owners shall be plainly displayed on the wagon or other vehicle.

SECT. 2. Amend Section 2 of said Chapter by striking out the whole thereof and substituting in its place and stead the following new Section 2:

SECT. 2. Any person, firm or corporation who and/or which shall set up, employ, or use any job team, wagon, automobile or other vehicle as aforesaid, without first having obtained a license as aforesaid, and any person, firm or corporation so licensed who shall violate any provisions of this Chapter, shall be fined not exceeding ten dollars.

Passed January 9. 1939.

AN ORDINANCE IN AMENDMENT OF CHAPTER 50 OF REVISED ORDINANCES, 1938.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 2 of Chapter 50 of Revised Ordinances, 1938, by striking out the whole thereof and substituting in its stead the following new section 2:

SECT. 2. No person, firm or corporation shall operate or cause to be operated a taxicab unless licensed as herein provided. No license shall be issued (1) unless and until the Board of Mayor and Adermen have issued a certificate that public convenience and necessity require the operation of said taxicab, and (2) to such person who, and/or firm or corporation, which, satisfies the said Board that he, and/or its officers or agents are, thoroughly familiar with the topography of the City of Concord and, (3) only to such person, firm and/or corporation as said Board deems suitable to carry on said taxicab business. Said license shall be effective during such time as said person, firm and/or corporation is deemed suitable to carry on said business, and during such time as a corporation has in its employment, officers and/or agents, thoroughly familiar with the topography of the City of Concord.

SECT. 2. Amend Section 5 of said Chapter 50 by striking out the designation "Police Board" and inserting in its place and stead, the designation "The Board of Mayor and Aldermen," so that said section shall be as follows:

SECT. 5. The Board of Mayor and Aldermen may, upon the conviction of the registered owner of any taxicab licensed under this

ordinance, of a violation of this or any other ordinance of the City of Concord, or of any offense against the laws of the State of New Hampshire, suspend or revoke the license of each taxicab licensed by such owner. Every taxicab license shall expire on the first day of October next following the date of its issuance.

SECT. 3. Amend Section 6 of said Chapter 50 by striking out the whole thereof and substituting therefor the following new section:

SECT. 6. No person shall operate a licensed taxicab without first obtaining from the Board of Mayor and Aldermen a license to operate licensed taxicabs, excepting when the said Board is not in session, temporary licenses, effective from the date of issuance to the next regular monthly meeting of said Board, may be granted when approved by the Chief of Police, signed by the Mayor and issued by the City Clerk, with the applicant paying therefor a license fee of one dollar, which fee shall include payment for the temporary license and any such operator's license later issued in the same year to said person by said Board. The Board of Mayor and Aldermen may issue, to a person over eighteen years of age, if it deem said person suitable, and if said person is found by said Board to be thoroughly familiar with the topography and/or street locations and different subdivisions of the City of Concord, a license to said person to operate licensed taxicabs. Applications for a license to operate licensed taxicabs shall include the name, address, and age of the applicant, the number of years of driving experience, his state operator's license number, any record of motor vehicle violations in this or any other state, and any criminal record previously had by the applicant and such other data as the City Clerk may prescribe. Said applicant must be able to read, write and speak the English language intelligently, and on filing his application must show to the City Clerk and/or the Deputy City Clerk a valid license as a chauffeur issued to him by the Commissioner of Motor Vehicles of this State. The City Clerk shall keep a record of applications (with the State Motor Vehicle License Number of the applicants endorsed thereon) and licenses granted. All licenses granted to operate licensed taxicabs shall expire on the first day of October next following the date of issuance. The fee for each license to operate licensed taxicabs shall be one dollar which shall be paid to the City Clerk at the time said license is issued.

SECT. 4. Amend Section 8 of said Chapter by striking out therefrom the designation "Police Board," and substituting therefor the designation "The Board of Mayor and Aldermen," so that said section shall be as follows:

SECT. 8. Upon a conviction of a violation by an operator licensed under this Ordinance, or of any Ordinance of the City of Concord,

or of any offence against the laws of the State of New Hampshire, the Board of Mayor and Aldermen may, in its discretion, suspend or revoke such license.

SECT. 5. Amend Section 9 of said Chapter by striking out therefrom the designation "Police Board" and substituting therefor the designation "The Board of Mayor and Aldermen" so that said section shall be as follows:

SECT. 9. The suspension or revocation of any operator driver's license by the State Registrar of Motor Vehicles, shall automatically suspend his license to operate a taxicab hereunder. Such suspended or revoked license hereunder may be restored, upon application to the Board of Mayor and Aldermen in its discretion, but such restoration shall not be made until the State Registrar of Motor Vehicles has restored the license issued by his office.

SECT. 6. Amend said Chapter by adding at the end thereof a new section to be known as Section 12a, as follows:

SECT. 12a. Application. In construction of this ordinance the following definitions will apply:

"Taxicab licenses," license issued under this Chapter, as said licenses apply to the term taxicab as set out herein.

"Licensed Taxicab," a motor vehicle licensed under this Chapter.

"Person licensed to operate a licensed taxicab," one who has received a license to operate taxicabs as set out in this Chapter.

"Taxicab operator," a person licensed under this Chapter to operate licensed taxicabs.

Passed January 9, 1939.

RESOLUTION ACCEPTING THE OFFER OF THE UNITED STATES TO THE CITY OF CONCORD TO AID BY WAY OF GRANT IN FINANCING THE CONSTRUCTION OF A NEW PUBLIC LIBRARY BUILDING.

Be It Resolved by the Board of Mayor and Aldermen of the City of Concord:

SECTION 1. That the offer of the United States of America to the City of Concord to aid by way of grant in financing the construction of a new public library building a copy of which offer reads as follows:

FEDERAL EMERGENCY ADMINISTRATION OF PUBLIC WORKS

Washington, D. C.
Dated: Dec. 5, 1938
Docket No. N.H. 1004-F

City of Concord,
Merrimack County, New Hampshire,

1. Subject to the Terms and Conditions (PWA Form No. 230, as amended to the date of this offer), which are made a part hereof, the United States of America hereby offers to aid in financing the construction of a public library building, including necessary equipment and the acquisition of necessary land (herein called the "Project"), by making a grant to the City of Concord, New Hampshire (herein called the "Applicant"), in the amount of 45 per cent of the cost of the Project upon completion, as determined by the Federal Emergency Administrator of Public Works (herein called the "Administrator"), but not to exceed, in any event, the sum of $111,688.

2. By acceptance of this offer the Applicant covenants to complete the Project with all practicable dispatch, and in any event by January 13, 1940.

3. In determining the cost of the Project for the purpose of computing the amount of the grant, the Administrator will not include as eligible, on account of the cost of necessary land, any amount in excess of $37,229 or of 15 per cent of the cost of the Project upon completion, as by him determined, whichever is less; and the Applicant by the acceptance hereof covenants that any amount in excess of such eligible amount which is required to pay the cost of necessary land shall constitute a pro tanto increase in the Applicant's share of the cost of the Project and will be deposited, with the rest of the Applicant's share, in the Construction Account described in the said Terms and Conditions.

4. This offer is made subject to the express condition that, if the Administrator shall determine at any time that the Applicant has paid or agreed to pay, whether directly or indirectly, a bonus, commission or fee to any person, firm or corporation for attempting to procure an approval of the Applicant's application, or for alleged services in procuring or in attempting to procure such approval, or for activities of the

nature commonly known as lobbying performed or agreed to be performed in connection with the application, then the Administrator shall have the right, in his discretion, to rescind this offer and any agreements resulting herefrom, and, in the event of such rescission, the United States of America shall be under no further obligation hereunder.

5. The acceptance of this offer by the Applicant shall effectuate a cancellation of the contract created by the acceptance of the offer dated June 28, 1938, made by the United States of America to the Applicant; provided, that the cancellation of such contract shall not impair or vitiate any acts performed or proceedings taken thereunder prior to such cancellation, but such acts or proceedings may be continued under the contract created by the acceptance of this offer.

UNITED STATES OF AMERICA,
Federal Emergency Administrator of Public Works,
By (Signed) H. A. GRAY,
Assistant Administrator.

be and the same is hereby in all respects accepted.

SECT. 2. That said Board of Mayor and Aldermen of the City of Concord agrees to abide by all the Terms and Conditions of said offer, including the Terms and Conditions annexed thereto and made a part hereof.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Mayor and Board of Aldermen:

In presenting their sixty-seventh annual report, the Board of Water Commissioners are calling your attention to the report of the Superintendent, Percy R. Sanders, which report fully describes the work of the Board for the year 1938, covering in detail the financial statement of receipts and disbursements; also the laying of new mains on account of additional service in different parts of the city, relaying new pipe for old and a substantial number of new service connections.

The hurricane occurring last September was a real disaster, as a large part of the standing timber on the west and east shores of Penacook Lake was blown down, and it will be many years before this growth of timber will be replaced, and doubtful if it ever will be to the extent of the old growth.

The Board discussed at several meetings the problem of taking care of the blown down trees, with the result that they decided to let out the job of logging and sawing into square-edged boards.

The cost of sawing the logs into lumber is quite substantial and probably the logs will produce in the neighborhood of 800,000 feet of lumber which we hope to be able to market for enough money to pay the cost of cleaning up the effects of the hurricane.

It is with a keen sense of loss that we record the death of Mr. Burns P. Hodgman, who served on the Board of Water Commissioners and also served as Clerk of the Board from January 24, 1911, to the date of his death, November 19, 1938, and we take this opportunity of including in our report the resolutions that were adopted by the Board at the time of his death:

WHEREAS, God in his infinite wisdom has taken Burns P. Hodgman from us,

Now, Therefore, Be It Resolved, That the members of the Water Board of the City of Concord do hereby record their sense of loss, both as officers of the City of Concord and as individuals, in the termination of their association with Mr. Hodgman. As a member of this Board for many years, Mr. Hodgman freely and generously gave his time and effort to the promotion of this important community enterprise. His thorough comprehension of the broad problems of policy and his diligent attention to detail were an invaluable help in accomplishing the work of the Board.

Be It Further Resolved, That this resolution be spread upon the records of this Board and that a copy thereof be forwarded to Mr. Hodgman's family.

Respectfully submitted,

For the Board of Water Commissioners
duly authorized,

HARRY H. DUDLEY,
President.

EXTENSIONS AND IMPROVEMENTS

Distribution pipe laid:

8-inch cast-iron, cement-lined:

Centre Street, 1,193 feet, from North Fruit Street to Kensington Road.

North Fruit Street, 304 feet, from School Street to Centre Street.

Kensington Road, 306 feet, from School Street to Centre Street.

Loudon Road, 1,144 feet, west, from intersection of Canterbury Road; 890 feet of 2-inch discontinued.

Lincoln Street, 360 feet, from South Street to South Spring Street, replacing 4-inch pipe.

6-inch cast-iron, cement-lined:

Hobart Street, 1,936 feet, from Penacook Road east to Bean Street.

Bean Street, 286 feet, from Hobart Street south to Snow Street.

Welch Street, 285 feet, from Hobart Street south to Snow Street.

Ferry Street, 830 feet, from Rumford Press plant east, replacing 4-inch, 2-inch and 1¼-inch pipes.

East Penacook Street, low service main, 99 feet, extended east from Concord Lumber Company plant.

2-inch galvanized:

Borough Road East, 519 feet, extended east.

Abbott Road, 141 feet, extended east.

Heights Road, 194 feet, extended west.

Kearsarge Street, East Concord, 75 feet, extended west.

1¼-inch copper tubing:

Hutchinson Avenue, 180 feet, north from West Street.

Cottage Court, 158 feet, relaid east from South State Street.

Glen Road, West Concord, 60 feet, extended north.

1-inch copper tubing:

Margerie Street, 29 feet, extended north.

On connections: 11 feet of 8-inch; 6 feet of 6-inch.

On hydrant branches: 148 feet of 6-inch.

Distribution pipe discontinued:

8-inch, 12 feet; 4-inch, 990 feet; 2-inch, 1,012 feet; 1¼-inch, 78 feet; 1-inch, 181 feet.

Twenty-eight new gates were set, seven 8-inch and twenty-one 6-inch; four 4-inch gates were discontinued.

Twelve additional hydrants were set:

Centre Street, north side, opposite North Fruit Street.

Center Street, north side, opposite Hillside Road.

Center Street, north side, opposite Kensington Road.

North Pembroke Road, north side, at Hatch's.

Loudon Road, north side, at No. 80.

Hobart Street, north side, between Penacook Road and Welch Street.

Hobart Street, northwest corner of Welch Street.

Hobart Street, north side, between Welch Street and Bean Street.

Hobart Street, northwest corner of Bean Street.

Allison Street, northwest corner of Allison Street.

Ferry Street, north side, east of Stickney Avenue.

Water Works Right of Way, southwest corner of Sheep Davis Road.

One hydrant was discontinued, Ferry Street, east of railroad tracks.

Forty-six new services have been laid, consisting of 17 feet of 4-inch pipe; 45 feet of 3-inch; 110 feet of 2-inch; 158 feet of 1-inch and 853 feet of ¾-inch pipe; of these, 5 were relocations of old services; a 6-inch sprinkler service was installed for Lincoln Furniture Company and a private hydrant for Concord Steam Corporation, cost of both being repaid the Water Works.

Thirty services were discontinued in addition to 5 relocations; net increase of services, 11.

Forty-nine services were relaid; 77 were partially relaid.

Fifty-two new meters were set; 10 were permanently discontinued.

New construction work consisted mainly of replacing small mains and supply lines with increased sizes as shown by the schedule. An eight-inch cement-lined, cast-iron main was laid through North Fruit Street, Centre Street and Kensington Road, connecting with School Street at North Fruit Street and Kensington Road.

Hydrants have been set on these replacements in accordance with the recommendations of the Hydrant Commission. Services were relaid where necessary or if not relaid, were placed in good working condition.

A woven-wire fence has been built around the auxiliary pumping station, with entrance gates that are locked when no one is in attendance. There have been no changes, or additions, other than the fence at this station. The plant is in excellent working condition and all pumps are operated weekly.

The automatic pumping station has given satisfactory service and has not failed to operate when called upon.

A gasoline-driven centrifugal pump for emergency use has been added to the equipment in this station. The unit is one manufactured by Fairbanks-Morse Company and will pump 400 gallons per minute against a head of 100 feet.

An average of 62,253 gallons per day is used in the extra high service system.

The water in Penacook Lake has been sufficiently high this year to supply all needs without calling upon the auxiliary plant. The mean height for the year was 184.712; .288 feet below the overflow. All water used from the lake was chlorinated as usual.

On the afternoon of September 21, the hurricane that caused so much destruction throughout New England took its toll from the pine and hardwood trees on the watershed of Penacook Lake. Most of the damage was done to the trees on the west side of the lake. The hurricane seemed to be obstructed by the hills on the east side of the lake and went over the tops of most of the trees on that side, then descended, struck on the lake and west side with full force. About eight or nine hundred thousand feet of pine was blown

down and the pine plantations, twenty to twenty-five years old, were ruined. A sawmill has been set up at the lake and the lumber is being sawed and stacked.

The report annexed shows the financial condition of the Water Works. The total cost of the plant to December 31, 1938, is $1,811,741.35, the depreciation total is $586,-279.06 and the depreciated value is $1,225,462.29. $17,-000.00 in bonds has been retired and the bonded debt is now $193,000.00.

Respectfully submitted,

PERCY R. SANDERS,
Superintendent.

SUMMARY OF STATISTICS

For the Year Ending December 31, 1938

CONCORD WATER WORKS

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE

GENERAL STATISTICS

Population by census of 1930, 25,228.
Date of construction, 1872 and 1931.
By whom owned, City of Concord.
Sources of supply, Penacook Lake and driven wells in Pembroke.
Mode of supply, gravity; also pumping to reservoir for high service and fire protection and pumping to standpipe for extra high service for higher section of city.

PUMPING

North State Street Pumping Station

Electric Pumps

One Worthington 8″, single stage centrifugal pump, capacity 3,800,000 gallons per 24 hours. Motor, G. E., 100 H. P., A. C.
One DeLaval 8″, single stage centrifugal pump, capacity 3,600,000 gallons per 24 hours. Motor, G. E., 100 H. P., A. C.
Power: alternating, 3-phase, 60 cycles, 2,200 volts, 1,740 R. P. M.
K. W. H. used for year, 223,710.
Total pumpage by Venturi meter, 460,007,000 gallons.
Average static head against which pump works, 90 feet.

Average dynamic head against which pump works, 115.2 feet.

Steam Pumps

Two Worthington triple expansion horizontal engines, capacity, each 2,000,000 gallons per 24 hours.

Total pumpage by Venturi meter, 7,597,000 gallons.

Sanders Pumping Station, Well Supply

Two 2-stage Morris electrically operated centrifugal pumps, direct connected 125 H. P. Westinghouse motors; capacity each 1,600,000 gallons per 24 hours.

One 3-stage Morris gasoline driven centrifugal pump operated by 175 H. P. Dolphin, C, 6-cylinder internal combustion engine, 1,200 R. P. M.; capacity 1,600,000 gallons per 24 hours.

Power: alternating 3-phase, 60 cycles, 2,200 volts, 1,740 R. P. M.

Total pumpage by Venturi meter, 6,236,800 gallons.

Average dynamic head against which pump works, 288 feet.

Average suction lift, 15.5 feet.

Total head against which pump works, 303.5 feet.

Average static head against which pump works, 207.4 feet.

Extra High Service Station

Two single stage Allis Chalmers electrically operated centrifugal pumps, direct connected 10 H. P. Allis Chalmers motors; capacity each 300 gallons per minute.

Power: alternating 3-phase, 60 cycles, 2,200 volts, 3,500 R. P. M.

Operated automatically.

Total pumpage by meter, 22,722,318 gallons.

Average dynamic head against which pump works, 85 feet.

Average head on suction side, 51 feet.

One Fairbanks-Morse centrifugal pump operated by a gasoline engine to pump 400 gallons per minute, against a head of 100 feet.

Pumpage by meter, 267,054 gallons.

DISTRIBUTING SYSTEM

Kind of pipe — cast iron, wrought iron cement-lined and cast iron cement-lined.
Sizes — four-inch to twenty-four-inch.
Extended — 5,906 feet during year.
Relaid — 1,002 feet during year.
Discontinued — 00 feet during year.
Total now in use, 487,819 feet, or 92.38 miles.
Sizes — three-inch and less.
Extended — 1,233 feet during year.
Relaid — 123 feet during year.
Discontinued — 1,148 feet during year.
Total now in use — 33,289 feet, or 6.30 miles.
Number of hydrants added during year — public, 11.
Number of hydrants now in use — public, 659; private, 113.
Number of stop gates added during year — 26.
Number of stop gates now in use — 1,411.
Number of blow-off gates — 75.
Range of pressure on mains at center of city — 88 pounds high service and 48 pounds low service.

Services

Kind of pipe — cement-lined, brass and copper tubing.
Sizes — three-fourths-inch to ten-inch.
Laid — 1,183 feet.
Discontinued — 883 feet.
Total now in use — 118,678 feet.
Number of service taps added during year — 46.
Number of service taps discontinued — 35.
Number now in use — 4,974.
Average length of service — 23.85 feet.
Number of meters added during year — 42.
Number now in use — 4,217.
Additional services under meter rate — 26.
Percentage of services metered — 85.30.
Percentage of receipts from metered water — 94.14.

STATISTICS OF CONSUMPTION OF WATER

1. Estimated total population at date, 25,228.
2. Estimated population on lines of pipe, 24,000.
3. Estimated population supplied, 24,000.
4. Total consumption for year, 960,268,800 gallons.
5. Amount supplied by gravity, 486,428,000 gallons.
6. Amount supplied by pumping, 473,840,800 gallons
7. Average daily consumption, 2,630,870 gallons.
8. Average daily use per service, 525 gallons.
9. Gallons per day each consumer, 109.6 gallons.
10. Amount of chlorine used, 2,600 pounds.
11. Amount of chlorine per 1,000,000 gallons, 2.725 pounds.

FIRE DEPARTMENT

To the Board of Mayor and Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1938.

The department responded to 513 alarms as follows: Bells, 62; stills, 451.

The number of alarms were more than the previous year by six. There was an increase in property loss due to several warehouse fires.

All apparatus and equipment is in good condition. Necessary repairs and replacements were made, work being done in the department shop.

The department is still in need of adequate ladder equipment, and I recommend the purchase of an aerial ladder truck.

As a result of the September hurricane, the fire alarm system was badly damaged, necessitating the rebuilding of all outside construction, which will be completed in the near future.

The several stations under the care of this department are in good condition. Station 3 was rewired and painted, and storm damage repairs were made on stations 5, 6, and 8. A modern station should be built to house the apparatus of Engine 5, in the Plains district.

A yearly hose test was made, and some was rejected. A thousand feet of hose should be purchased for the coming year.

Fire prevention work was carried on by the regular force, and the results of this work have proven highly satisfactory.

The co-operation of the citizens with the inspectors is greatly appreciated.

For the support and co-operation of your Board, and the heads of departments, I wish to express my appreciation.

Respectfully submitted,

W. T. HAPPNY,
Chief of Department.

FIRST ANNUAL REPORT OF THE PROBATION OFFICER FOR 1938

On June 20, 1938, I was appointed Probation Officer for the City of Concord, pursuant to the provisions of Section 5 of Chapter 143 of the Laws of 1937, and herewith submit my report for the period ending December 31, 1938.

Since my appointment, your Court has referred to me thirty-three cases. Thirty were juvenile delinquents and three concerned the failure of the husband or parent to properly support his family. Of the juvenile delinquents, five were committed to the State Industrial School at Manchester, N. H. Three were committed for violating their probation rules and two were committed because it was felt that probation would not help them. From the three adults under my supervision for non-support, there has been collected and turned over to their dependents $150.60. From the juvenile delinquents in my charge for petty larceny and similar offenses, there has been collected and paid to the complainants in restitution $36. Ten juvenile cases were investigated, in which no Court action was taken, because the offenses committed did not warrant it.

Of the thirty juvenile delinquents, fifteen committed the offense of entering a building and taking articles of some value, four took articles from parked automobiles, six took articles valued at $25 or more, three set fire to an unoccupied building, one committed immoral acts and one committed a sex offense. Two juveniles were twelve years of age, nine were thirteen years of age, four were fourteen years of age, eleven were fifteen years of age, two were sixteen years of age, and two were seventeen years of age. The period of probation in these cases varies from one to five years, depending upon the seriousness of the offense committed, as well as the need for supervision of the particular case.

The total number of visits by probationers to my office

was approximately three hundred and the number of field visits to homes and places of employment of probationers totaled sixty-seven. Six positions were found for six probationers and one is unemployed at the present time, because he is under sixteen years of age. A total of seventy-five contacts were made by my department with other agencies and community resources, in behalf of probationers during this period.

A majority of the juvenile probationers have shown improvement scholastically and have evidenced an improved moral tone. The latter may have contributed to their improvement in scholarship.

A review of the cases of juvenile delinquency indicates the principal cause to be lack of parental supervision. Either the mother or father was absent from the home because of death, divorce or separation, and the other parent was at work away from home in order to support the children. In other words, the usual parental supervision and home life were lacking.

It is generally conceded that best results are obtained in probation work when the case load does not exceed seventy-five cases per Probation Officer engaged in full time work. At present, the City Probation Officer is employed on a part time basis. With thirty-three cases referred to my department in six months' time and ten cases more referred for investigation, but in which no Court action was taken, it is probable that before the end of another six months' period, the case load will demand all of my time, if the best results are to be attained.

Co-operation is the basis of success in probation work. Such success as has attended my efforts is due in a large part to the whole-hearted co-operation of the State Probation Department, Police Department, and the Relief and Welfare Departments of the city and state.

Respectfully submitted,

ROBERT L. COLBY,
Probation Officer.

2688′ of 24″ concrete pipe via Thorndike, South, Lincoln and South Spring Street to Pleasant Street at a cost of $15,354.88.

Eighty catch basins were taken out of the old sewer line and connected to the new line as outlined above.

260′ of 24″ concrete pipe was laid in Main Street, Penacook. This line acts as an overflow to the river, relieving the present sewer. This was built at a cost of $1,110.84.

The Walker Street storm sewer was extended to Horseshoe Pond, a distance of 544′ at a cost of $1,810.94.

The following sanitary sewers were constructed:

3406′ of 12″ Akron pipe, west of Auburn Street, constructed partly over private land and partly in streets at a cost of $8,042.10.

303′ of 8″ Akron on North Fruit Street and
730′ of 8″ Akron on Center Street Extension } at a cost of $2,922.05.

Plumbing Inspections

There were 156 plumbing permits issued and 312 inspections made during the year.

Through the efforts of Dr. Donald G. Barton, we have had the benefit of the services of Ellsworth Philbrick at no cost to the city. Mr. Philbrick started work on October 18, 1937, and he has done all inspecting of plumbing since that time. He is paid by the Public Health Service of the Federal Government.

To His Honor the Mayor and the Board of Aldermen:

GENTLEMEN: The Board of Library Trustees herewith transmits the report of the library activities for the fiscal year ending December 31, 1938, consisting of the financial and narrative reports of the Librarian.

The Board wishes to take this opportunity to commend the Librarian and her staff for their wholehearted co-operation, their faithfulness and the splendid type of library service rendered under such trying conditions.

The Board wishes also to thank the public for their cheerful acceptance of limited facilities in temporary quarters.

Respectfully submitted,

LEVIN J. CHASE,
President of the Board.

So much has happened to the library within the last year, that it is rather difficult to remember everything that has been done. In January Dr. Milton J. Ferguson, president of the American Library Association, came to Concord to make a survey of the library and to tell us how our methods of operation could be made more modern and efficient. Due to his report and advice, the library has a goal and can hope to reach it in the years to come. We started out in 1938 with an increased circulation, which has continued straight through the year, until we gave out 21,509 more books than we did in 1937.

Last winter we began to look for a place for temporary quarters, in anticipation of the library buildings being taken by the State of New Hampshire. Thanks to Monsignor Buckley and the people of St. John's parish we were able to secure the club house at 42 Pleasant Street and started moving in April. Needless to say it was a tremendous task and a great expense, but with the untiring efforts of the staff, Trustees and movers, it was finally accomplished and the Concord Public Library, which had been in the Fowler Building fifty years, opened May 2, 1938, in the new location after being closed only two working days. The staff can never be thanked enough for the long hours and hard work for

which they received no extra salary. It was not easy to move forty thousand books in order, as well as all equipment, light fixtures, etc., and a countless number of valuable birds. In our present quarters our books range from the attic to the cellar, with a large number of the older books and the Goodhue Bird Collection stored in the Walker Street chapel. We expected that while we were in temporary quarters we would have little business, but apparently the public likes the new quarters for we have had an increase of two thousand books per month. The staff, which consists of six people, is doing the work of at least ten assistants; all are greatly overworked and consequently it is not possible to provide library users with as good service as could be wished.

In May the library entertained this district of the New Hampshire Library Association and, because of our lack of space, Major Otis Hammond kindly allowed us to use the New Hampshire Historical Building. Two members of the Board took part in the all-day session and four Trustees were present at the meeting. In June the Librarian and one staff member attended a week's regional library conference at Manchester, Vermont, and one Trustee was at part of the convention. In July Miss Doris King, of the staff, left for six weeks' study in library work at Columbia University.

Last summer plans for the new building were begun after the Public Works Administration had made a grant of $111,-688 and Mr. Alfred Morton Githens and Francis Keally of New York were chosen as architects, with Eugene Magenau and Stewart Lyford of this city as associates. With the legal advice of Mr. Dudley Orr, the land on Green Street, from the house occupied by Bishop Dallas to Prince Street, was purchased for a new library site and in August Mayor Storrs broke ground for the new building, which is now in the process of construction.

Three members of the staff, Miss Mary Dennett, Miss Josephine Brown and Miss Ruth Melvin attended the annual meeting of the New Hampshire Library Association at Durham in August. All of the staff were present at the annual banquet and two Trustees also attended the meeting.

At the Citizens' Library luncheon, held at the Rumford Coffee House in the fall, two staff members and three Trustees were present.

The reference room, in charge of Miss Dennett, has been used by 5,575 people and has been a very active place due partly to the school children and Boston University extension course taken by many of the teachers.

A new registration was started in December in anticipation of the new building and there are now 10,115 registered borrowers of the main library and 1,342 new borrowers this last year. Also in December an electric charging machine for giving out books was installed and this should save the staff a great deal of time. This machine is the first one to be used in New Hampshire.

We have purchased 2,175 books this year and 125 books have been given, making a total of 2,300 books added. 1,614 books have been discarded, leaving a total of 40,686 books in the library. The quality of the book stock has gone down, because there has not been enough money to replace the books, which have worn out in this year of greatly increased use.

Last summer the library gratefully received the following bequest under the will of Andrew Abbott:

"I give and bequeath unto the Public Library of the City of Concord, New Hampshire, the sum of one thousand dollars in memory of my brother Stephen F. Abbott, said sum to be held in trust, and the annual income thereof to be used for the purchase of new books for said Library."

Children's Library

The children's library has had a very active year. In April this part of the library was moved to an upstairs room at 42 Pleasant Street in one morning, so that Mrs. Fred Clement, children's librarian, was able to open at one o'clock as usual. Because of lack of space in temporary quarters the high school department is in the same room with the first six grades, but in the new library the young people will have a separate room. During the spring the children's librarian had

a very attractive scene depicting Snow White and the Seven Dwarfs, which evoked much interest from the children.

In July Mrs. Clement was granted a six months' leave of absence by the Trustees and Miss Doris Tappan took charge of the children's work for the summer. She had a very successful reading club of thirty-five members. A ship, the S.S. *Reading*, was built in the center of the children's library and its cargo contained the books to be read for the cruise. Each passenger had an anchor with blue stars for fiction and gold stars for non-fiction. At the close of the contest a nautical party was held in St. John's Hall, with book prizes for the winners and three puppet shows produced under the supervision of the New Hampshire Public Library Commission. An account of the reading club appeared in the magazine *Young Wings* and the Junior Literary Guild presented the children's library with a book.

In September Miss Helen Morey, graduate of Syracuse Library School, took charge of the children's library and has organized groups of various ages, for story-hours held every Saturday morning. Miss Morey tells stories to the children and Miss King teaches them songs and plays for them. During Book Week in November children from the different schools visited the library, and a puppet show, presented by Katherine Foster and Cynthia Colby, attracted several hundred children. The children's library was nicely decorated for Book Week with flags and dolls of all nations, representing the theme "New Books — New Worlds" and many new books were on display. Most of the elementary schools in the Union School District borrow books from the library for pleasure reading and Miss Ann Killeen, librarian at the senior and junior high schools, has borrowed many books for the libraries there. A new registration has been started in the children's department, so that with the new building all children below seventh grade will have different cards and a separate file. The week before the Christmas holidays Miss Morey and Miss King visited all the suburbs, giving Christmas music and stories for the children.

Branches

The largest branch is at Penacook and is in charge of Miss Ruth Melvin of the main library staff. It is open every Tuesday and Friday afternoons and Miss Melvin has given out 13,375 books this year, an increase of 5,040 over 1937. During Book Week Mrs. Edward Towne told stories to a group of fifty-five children and Miss Doris King played and sang to them. The Penacook schools made attractive Book Week posters, which were on display in the branch room. There are now 576 registered borrowers at Penacook and 218 new borrowers this year. When the main library was moved more book cases were installed and there are about 2,500 books in that branch.

In East Concord a collection of books is kept at the home of Mrs. Herbert Stuart and these are available at all times and are changed for a different set of books as often as possible.

At Concord Heights a branch in charge of Miss Rosemary Somes was opened in June at the Grange Hall and continued there until fall when, because of lack of money to pay for heating the hall, it was moved to the Highland Club next to the Harriet P. Dame School. We are grateful to the Highland Club for the building, light and heat, which they provide without charge.

Miss Somes had a reading club last summer for the children, which ended with a party and prizes for the children reporting on the largest number of books. This branch is open every Tuesday and Saturday afternoon and is now in charge of Miss Rena Coulombe. In November a story-hour was held with stories by Miss Morey and violin music by Miss King of the main library staff and sixty children were present. 2,782 books were given out from this branch.

In October the public library was asked to take over the West Concord Library as a branch. Thanks to Chief William T. Happney of the Concord Fire Department, we are allowed the use of the large room over the West Concord Fire Station, with heat and light included, and the library was

moved there last fall. Miss Barbara Loiselle is in charge and the library is open every Tuesday and Friday afternoon and Friday evening. About fifty children were present for a story-hour, put on last fall by members of the staff of the main library. The people of West Concord should feel very grateful to Reverend and Mrs. Franklin Thompson for the work they have done in starting and building up the West Concord Library and we hope that the public library will have enough money to carry on the work and give good service.

Conclusion

Of course our temporary quarters are very small — one visiting librarian called it a "doll's library" — it is cut-up and crowded, but we are fortunate in being able to keep the library open and we hope that our library users will continue their cheerful acceptance of many minor and some major inconveniences, especially with a new building in the near future with plenty of room for the whole community.

We are grateful to the Trustees for all the time and effort they have put into moving the library and planning the new building — probably never in the history of the library has there been so much responsibility for a board.

I am especially grateful to the staff for their splendid co-operation in this hard year — for it has been a difficult one in many ways — to the interested groups before whom I have spoken this year, to the Concord Monitor for the fine publicity it has given the library and to all the people who have given of their time and money in the service of the library.

Respectfully submitted,

MARION F. HOLT,
Librarian.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To His Honor the Mayor and the Board of Aldermen:

In addition to the usual routine work during the period January 1, 1938 to January 1, 1939, your Sealer of Weights and Measures has responded to many requests of Concord citizens and officials of city departments, some of which have been of unusual nature. Several freight carloads of coal were weighed for the purpose of ascertaining if correct weight had been delivered; bins of coal were measured to estimate the amount therein; wood "in the loose" measured; and 25 bags of coal weighed.

Occasionally an inspector, in the course of his duties, will come across an antiquated weighing or measuring device, which no longer adequately serves the purpose for which it was designed. This was the case of a steelyard, which was found inaccurate and, consequently, confiscated. There are few such devices now in existence, as more modern methods of weighing commodities are employed. A similar condition exists in connection with dry measures. Seventeen were tested during the year, although most commodities are sold by weight rather than measure.

Your sealer tested 1,076 scales, 728 of which were found correct and were sealed, 312 were adjusted before being sealed, 16 confiscated and 20 condemned for repairs.

There were 1,074 weights tested, 1,058 being found correct and 16 adjusted before being sealed.

Liquid measures to the number of 5,654 were tested, the majority of which were found correct and were sealed, 4 were adjusted before being sealed, 9 confiscated and 2 condemned for repairs.

There were 408 automatic pumps tested, 303 of which were found correct and were sealed, 97 were adjusted before being sealed, 1 confiscated, and 7 condemned for repairs. It

was necessary to make reinspections in connection with the latter in order to seal the pumps after they had been put in proper condition. There were tested 3,073 oil measuring devices.

The usual, careful supervision of commodities packaged in advance of sale was made to ascertain that customers were receiving correct weight, and also that their net contents were expressed in accordance with the requirements. In some instances the packages were not marked properly, while others did not contain the correct weight. The results were as follows: 4,329 correct, 52 over and 130 under weight.

Ten (10) loads of coal in the process of delivery were weighed, 2 of which contained the amount specified on the certificates, 4 over and 4 under weight.

Thirty-six (36) yardsticks were tested, 3 of which were confiscated, while the others were found to be accurate. Two (2) cloth-measuring machines were tested and found correct. There were measured 56 truck bodies used in the delivery of wood, all of which were found correct with the exception of five.

Respectfully submitted,

GEORGE A. DEARBORN,
Sealer of Weights and Measures.

HEALTH DEPARTMENT

To the Mayor, Honorable John W. Storrs, the Board of Health and the Board of Aldermen:

The following report is submitted to you from the Department of Health for the year 1938:

The general health of the city has been exceptionally good and a decrease shown in certain diseases. There is evidence of more concerted effort in combating some diseases, such as diabetes and nephritis. The department has given much attention toward decreasing communicable disease by sterilizing of utensils in eating places, blood testing of food handlers and a rigid surveillance of all serious contagion.

The United States Public Health Service has supplied funds for a Plumbing and Housing Inspector and a Public Health Nurse. The work of inspecting housing and plumbing conditions has been carried on by Mr. Ellsworth B. Philbrick. He reports much improvement in the past year and with the continued co-operation of the property owners, it is hoped considerable more work may be accomplished this coming year.

The Public Health Nurse, Mrs. Sarah R. Siroy, R.N., has continued to give service to the Parochial Schools of Concord and Penacook. She has assisted at the venereal disease clinics and made many home visits in connection with this work.

Respectfully submitted,

DONALD G. BARTON, M.D.,

Sanitary Officer.

REPORT OF THE PARK AND CEMETERY COMMISSIONERS

To the Mayor and the Park and Cemetery Commission:

Throughout the cemetery system of Concord, special attention has been given during 1938 to thoroughly fertilizing all grass plots, shrubbery, trees and flowers, as well as maintaining the regular standard of upkeep and improving upon it when possible.

In Blossom Hill Cemetery, Block MM was graded with a rough fill; six-tenths of a mile of permanent black surface road completed; the pond finished with ashlar sides, dredged, a spillway built, and a cement bridge erected; a five-stall garage added to the present one; surface drainage put in from the South Gate to the present Tool House, and both the foundation and roof of the Chapel repaired.

Pine Grove Cemetery is rapidly becoming a modern cemetery, due to the removal of twenty-six curbed lots with careful grading. Soucook Cemetery had new trees and shrubbery set out. Both Maple Grove and Woodlawn Cemeteries roadways were repaired, shrubbery fertilized, and many unsightly trees and stubs removed. In Old North Cemetery, the Stickney Mausoleum was completed and landscaped and a trust fund of $10,000 placed.

At the beginning of 1938 there were approximately 1,900 maple trees in the Nursery. In the spring an additional 1,000 trees were purchased and previous to the hurricane 700 of these nursery stock trees were set out along the city streets and in the parks. This left a balance of 2,200 trees in the Nursery, which will be available in the coming spring and fall to replace the many public trees felled during the September storm and trees that will have to be removed because of injuries. As nursery stock is much higher since the demand has become greater and promises to stay so, this well-stocked Nursery of Concord's promises to be the means of a

substantial saving in 1939. Over 1,500 street trees were fertilized. The City of Concord has been particularly fortunate in its insect control. Only three trees in the city showed any defoliation resulting from Elm Leaf Beetle, because the trees instead of being sprayed once were sprayed twice. The Japanese Beetle showed a decided decrease, no entirely new infested area was discovered and only one section on Green Street showed a slight increase. Also the Maple Bark Borer was controlled by fertilizing and trimming trees.

The usual work was carried on throughout the park system: mowing, planting, trimming, general upkeep and spraying. The swimming pools had a successful season with five pools in use. These pools met with State Board of Health requirements in regard to chlorine content and bacteria. Only one accident occurred in the pools and that one was at Kimball.

At White Park, a great deal of grading was carried on and a retaining wall of ashlar was erected at the base of High Street sloop. The ball diamond was rough graded, but left unfinished due to the hurricane. Walk-ways were riprapped and stone dust spread on the main walks. This type of walk seems not only practical and lasting, but an attractive asset as well. A new dam was built at the outlet of the pond, which regulates the height of the pond and drains the low area as well.

In Rollins Park, a lily pond was built, the flower bed on the Broadway side resoiled and approximately 700 new plants and shrubs set out. Trees in the Deer Park were trimmed and a new water line laid to the duck pond.

Garrison Park had a much needed safety measure taken in the form of the filling in of the old brook bed which was then regraded. A new bridge was built across the brook, benches set out and the general upkeep was increased.

Many old shrubs and hedges were removed and replaced in West Garden.

REPORT OF THE CITY SOLICITOR

To His Honor Mayor Storrs and the Board of Aldermen:

Your Solicitor reports the following legal actions pending against the City of Concord and/or its duly appointed officials in carrying out their municipal duties. All entries of actions and Bills in Equity are at the Merrimack County Superior Court.

Ethel Blankenberg vs. *City of Concord Water Department*

Entered April Term, 1932, for personal injuries allegedly arising out of a fall on a sidewalk on North Main Street.

Bektash Temple Real Estate Association vs. *City of Concord.*

An appeal from tax assessment for the years 1936, 1937 and 1938.

Clement Schettino vs. *City of Concord.*

This action was entered at the October Term, 1934, for injuries alleged to have been sustained while Schettino was working as a city employee. Demond, Sulloway, Piper and Jones, Esquires, have joined with the City Solicitor as associate counsel.

Frank Ramsay vs. *James M. Langley, et als.*

This is a Bill in Equity entered at the April Term, 1936, praying for a reversal of a ruling of the Zoning Board of Adjustment, relative to the use of the petitioner's property located near Penacook on the Daniel Webster Highway.

Sarah J. Gilman vs. *City of Concord*

The above action was tried before a jury at the Merrimack County Superior Court, April Term, 1938, with verdict in favor of the City. Counsel for the plaintiff has made preparation to appeal said matter to the Supreme Court on rulings of law.

The Kimball System, Inc. vs. *James M. Langley, et als.*

Bill in Equity entered at October Term, 1937, praying for reversal of a ruling of the Zoning Board of Adjustment, relative to placing of a large sign near a public highway.

Roy L. Knox vs. *James M. Langley, et als.*

Bill in Equity entered at October Term, 1937, praying for a reversal of a ruling of the Zoning Board of Adjustment, relative to the use of petitioner's property on Pleasant Street.

Thomas Kelley, et al. vs. *City of Concord*

Petition for damages resulting from changing of grades and use of highway at intersection of Water and South Main Streets. Entered at October Term, 1937.

Anna M. Mann vs. *City of Concord*

Action entered at October Term, 1938, alleging damage to garden and property during highway construction at East Concord.

Maude L. Crowley vs. *City of Concord*

Appeal for taking of land for Airport purposes entered at the April Term, 1938.

During the last year the following cases were settled out of Court, as will appear by aldermanic records:

Frank Truchon vs. *City of Concord*

Mary J. Perry vs. *City of Concord*

Larson and Carlson, Inc. vs. *City of Concord*

Hearings were held, and the following two petitions were disposed of by the Court, as appears below:

Nicholas Faretra vs. *James M. Langley, et als.*

(1) Appeal upheld.

Edward J. Blanchard vs. *Tax Assessors*

(1) Abatement of five hundred dollars granted.

Your Solicitor has made two recommendations to you, which it is his belief should not be neglected: (1) certification by the New Hampshire Highway Department of railings and protections at and near embankments on the public highways of the city and (2) permits not to be issued allowing construction, alterations and/or changes, on, under and/or over public highways, by corporations and/or persons, until such permits have an indemnity clause protecting the city from liability arising from such work.

Your Solicitor thanks all city officials and employees for the co-operation and consideration extended to him by them during the last twelve months.

Respectfully submitted,

HENRY P. CALLAHAN,
City Solicitor.

REPORT OF THE CITY PLANNING BOARD

Establishment of Board

Recognizing the need for a fact-finding and advisory planning agency to assist in promoting the best development of the City of Concord and following the practice adopted in 1,700 other cities in the United States, the Board of Aldermen on April 11, 1938, passed an ordinance establishing the City Planning Board.

Functions

The City Planning Board has no powers, but its duties are many-fold. Briefly, it is the function of the Board to act in an advisory capacity to the Mayor and Board of Aldermen in formulating plans and policies affecting the present and future physical development of Concord. The activities of the Planning Board supplement, but in no way usurp, any of the functions of the governmental agencies of the city.

Board Membership

The City Planning Board is composed of nine members, namely, the Mayor, an administrative official of the city selected by the Mayor, a member of the Board of Aldermen selected by that body, and six citizens appointed by the Mayor. The members of the Planning Board are James M. Langley, chairman; Dudley W. Orr, secretary; John B. Jameson, Frederick P. Clark, Austin E. Page, Raymond D. Edwards, Mayor John W. Storrs, City Engineer Edward E. Beane and Alderman Harold D. Merrill. The members of the City Planning Board receive no compensation. The oath of office was administered to the Board at the first meeting held June 1, 1938.

Staff

Since the Board members serve at no salary, a small staff is necessary to permit the conduct of studies and preparation

of plans. A program of activities having been submitted to the Board of Aldermen for its consideration, the Aldermen on September 12, 1938, made available to the Planning Board an appropriation of $983 to defray expenses for the balance of the 1938 budget year. On October 3, 1938, Gustaf H. Lehtinen was appointed by the Planning Board to carry on its research studies. Shortly afterwards a draftsman was added to the staff.

Activities and Accomplishments

Although the Board's staff has been working only since October, 1938, definite progress has already been made in the study of the city's development and problems of immediate concern. Finding in the Planning Board an aid in the consideration of varied problems, the Mayor and the Board of Aldermen have referred to the Planning Board several matters for study and recommendations. While these have slowed down the rate of progress on the normal studies of Concord's long-range possibilities and requirements, the Board has been glad to assist the Mayor and the Board of Aldermen and in so doing indicate the fact-finding service available in the Planning Board's staff.

1. *September 1938 Storm*

Before the newly organized Planning Board and its staff of one had a chance to catch its breath, the severe flood and gale visited the city. Instructing its research worker to survey and determine the extent of storm damages, the Planning Board was able to present to the Mayor and the Board of Aldermen, within one week after the staff had been employed, a comprehensive report* summarizing the estimated damage wrought by the storm to the various types of public and private property, as well as a record of the activities of the citizens, organizations and governmental departments during and immediately following the emergency. It is sig-

*A limited number of copies of this report are available at the Planning Board office.

nificant that the Planning Board's estimates approximated very closely actual damages as ascertained later.

2. *Study of Land Use and Development*

During the remaining months of 1938, the staff undertook and completed a survey and study of the use and development of land in the city. This is the first in a series of studies fundamental to the consideration of plans for the future requirements and development of Concord. The use of every piece of property in the city was recorded on maps which are on file in the Planning Board's office. The results of this study were printed and made available to the public in a report* entitled, "The Development and Use of Land in Concord, New Hampshire."

Although a knowledge of the uses of land is a fundamental step in the process of laying a foundation from which will evolve the City Plan, an immediate value of making this study is to permit an analysis of existing trends of land use in relation to an intelligent amendment of the present zoning ordinance. This task will be one of the first to which the Planning Board will give its consideration during the coming year.

3. *"Health Center" Study*

At the request of the Mayor, the Planning Board instructed the staff to survey the advisability and feasibility of the erection of a combined health and social service center in Concord. Upon completion of this study, the Planning Board recommended to the Mayor that such action be deferred for the present, because the actual demand on the part of the various agencies concerned did not appear to warrant an expenditure of city funds at the present time.

4. *Army Air Base Study*

A study of the advantages and disadvantages connected with the proposed location of an Army Air Base in Concord

*A limited number of copies of this report are available at the Planning Board office.

was undertaken by the Board's staff at the request of the Airport Commission. Chief among the advantages involved were the following: the large amount of permanent construction and expansion, increased population, increased purchasing power, growth of small industries dependent on the air base, employment of local people in construction, and establishing Concord as the focal point of parallel expansion of civil aeronautic activity. Outstanding disadvantages were listed as loss of present civil airport, loss of existing facilities (such as water mains, streets, sewers, etc.), tax loss, possible change in character of population, noise nuisance, danger of accident from take-offs or loosening of bombs over city, and risk, in time of war, from enemy attack. At a joint meeting with the Commission, the results of this study were communicated to the Airport Commission and turned over to that body for further consideration.

5. *Base Maps of City*

Two new base maps of the city have been prepared by the Planning Board. One is a map of the entire city at a scale of one inch equals one thousand feet, while the other is a map of the built-up portions of the city at a scale of one inch equals four hundred feet. The Planning Board recommends copies of these base maps as highly desirable for use by the public needing large workable maps.

6. *Other Activities*

Other activities of the Planning Board include consideration of the proposed highway work program of the Board of Public Works, a study of the possibilities of taking a city census, consideration of the compilation of a city history, and the preparation of a police patrol map.

Future Program

Other matters vitally important to the future development of Concord and distinctly a part of the City Plan which will receive the attention of the Planning Board as

soon as the staff can make the necessary preliminary surveys include the following:

1. A plan showing the best use of land in the city, including a recommendation of those areas which should be developed first in order to use to the fullest advantage the public improvements (such as streets, sewers, water mains, etc.) already existing, thereby conserving public funds.
2. Suggested changes in the zoning ordinance.
3. A comprehensive street plan indicating necessary changes in the street and transportation systems and parking opportunities to assist in the promotion of better land use, and further indicating what roads and streets might be abandoned or maintained in less expensive fashion without interfering with the economic use of land, and thereby reduce costs of providing public services.
4. A plan for the provision of recreational facilities and opportunities necessary to a healthy population.
5. Recommendations for the correction of those causes of tax delinquency associated with improper use of land.
6. Recommendations for a city policy with regard to tax exempt lands.
7. A plan for the acquisition of necessary public building sites and public lands in proper locations and in advance of intensive land development thereby decreasing the cost to the city of such necessary land acquisitions.
8. A suggested program for the control of new subdivision of land in order to prevent premature and unnecessary city expenditures for streets and other public improvements.
